- Google Data Analytics Professional Certificate

HOBBIES

- Computer Games
- Chess
- Puzzle Solving

PROFESSIONAL EXPERIENCE

Software Developer

Jun 2023 to May 2024

FDM Group/OCBC

- Developed two projects at FDM, a simple job portal and a forex exchange platform, utilizing Java and Spring Boot while using Eclipse as an IDE and MySQL for the database.
- Developed an innovative project for the OCBC app utilizing Kotlin and Android Studio to add Bluetooth and multi-transfer features to the existing PayNow flow.
- Debugged and wrote unit tests for a feature that allowed for recurring payments to be scheduled through PayNow.
- Pioneered a proof of concept for entering the OCBC app dashboard directly without a PIN and code, while keeping sensitive activities behind 1FA and 2FA requirements.

Business Development Executive

Dec 2019 to Jun 2023

Genplus Pte Ltd

- Performed financial analysis to assess project feasibility and ROI optimization over the course of a project, improving the transparency of project profitability for the company and the client.
- Liaised with companies overseas for potential collaborations and business development in areas such as Maldives and Vietnam, leading to increased sales opportunities.
- Maintained existing client accounts and handled inquiries from new clients for energy storage systems (ESS) and photovoltaic (PV) systems.

EDUCATION

Singapore Management University (SMU)

Aug 2015 to Jul 2019

Candidate for Bachelor of Science (Economics)
